

Using Our Fundraiser Order Forms

- The participant collects money at the time of the order and the fundraiser sponsor writes us one check at the time the order is submitted.
- If the order totals at least \$1,500 (\$750 profit for organization and \$750 company) then we will ship for free. Shipping charges will apply to all others. If there is a problem with your order then we will replace and ship these for free.
- We do try to process your orders as quickly as possible. (a few days in most cases) We have a large stock of products here on hand.
- There is no time limit on how long you would like for your fundraiser to run although most last 2-3 weeks.
- Any order placed via our website that mentions your organization, will be added to your fundraiser total. We will honor this up to 30 days after the end of your fundraiser. A check will be mailed to your organization at the end of the 30 day period. If the reorders are for the fundraiser packages, the profit will be 50%. If the reorders are for individual packages, the profit will be up 40% depending on the products ordered. Either way, the customer will pay for the shipping of these products.
- In each bag, there will be a brochure listing all of our mixes and their retail prices. There will also be a note stating that if they order in the next 30 days, we will credit your organization. This allows the customer to purchase more of what they bought, to order something that was not in one of the value packages, or to order just one of something they really wanted instead of them buying the whole package.
- After putting together the different value packages, we write the name of the package on the outside of each bag so that it is easy to identify what is in each bag. This makes it very easy for the sponsor to sort through the boxes and hand out the correct packages to the participants.
