

Our Most Popular Mixes

Hopefully, this list will help you in deciding which mixes to start out with. Keep in mind that all areas of the country are different in their taste preferences. Also, some mixes are more seasonal than others. Once you sign up, there is a page in the back office that you can view that explains in detail different mixes that are easy to sample and ideas on how to sample them.

The most popular mixes are as follows:

Dips- Mexican Fiesta Dip, Spinach Dip, Herb, Hawaiian Cheeseball, and Chocolate Chip Cheesecake Dip, Pina Colada Dip

Meals/Sides- Mexican Meatloaf, Cheesy Potato Casserole, (in the South- Crawfish or Shrimp Cornbread and Jambalaya if you sample it)

Soups- Tortilla Soup, Baked Potato Soup, Taco "Soup"reme, and Cabbage (only if sampled)

Sweets- Key Lime Pie, Dreamsicle Pie, Strawberry Lemonade Pie/Dip, and Chocolate Pecan Bars, and in the Fall- Caramel Pecan Pie and German Chocolate Pie

Bread- Beer Bread

Beverages

These are popular during the fall and winter and die down in warmer weather. The Hot Spiced Cider/Wine, Peach and Raspberry Tea, and Russian Spiced Tea are especially popular in the fall and winter. The Hot Chocolates sell really well during the cold months, especially at Christmastime. When you sample the Hot Buttered Rum, it sells great!!!!

Breads and Muffins

We have several distributors that sample the Spiced Apple Cake Mix, Nana's Banana Nut Bread, and the Sweet Fruit Bread. They have great success with those. They make them in mini muffin pans. We sometimes sample the Pecan Pie Muffins and Pumpkin Bread Mix, and they go over very well when we do. We make them in the mini muffin pans and then cut the muffins in fourths so that we can get more samples out of a package. The pancakes all sell about the same and are just okay sellers. The Beer Bread is a wonderful seller. Some people sample that along with the Herb Dip and mix it with olive oil. They sell out of both!

Desserts/Cookies

We have TONS of luck with the pies ALL year long! Most are easy to sample. Grandma's Pumpkin Pie/Cheesecake is a good seller around Thanksgiving, but we don't sell many other than that time. Besides the mixes listed above, the Peanut Butter Pie is also great- especially with either Toffee pieces inside or Reese's Cups- great and easy to sample too!

Other desserts/cookies that sell well and are easy to sample are the Snickerdoodles, 5 Minute Microwavable Chocolate Fudge, and Peanut Butter Fudge. Eggnog Fudge usually only sells around Christmastime because you can only buy eggnog then. We would not get any of the mixes with chocolate included if you are going to be doing shows outside in the summer. The chocolate will melt when outdoors. In fact, we discourage shipping these during the warm months.

Diabetic Friendly/Sugar Free

PawPaw's Sugar Free Chocolate Pie, Sugar Free Coconut Pie, Sugar Free Key Lime Pie, Sugar Free Peanut Butter Pie, Sugar Free Fruit Crisp, and Sugar Free Lemonade Pie are the most popular sugar free mixes. They are easy to make, easy to sample, and our best selling sugar free mixes. Poppy's Sugar Free Pumpkin Pie is popular as well, although it tends to sell better in the Fall.

Dips

This whole category is a great selling category!

For the Savory dips, the Mexican Fiesta and Ranch are popular because people love the fact that they can get more than one use out of these. **You use only 1 Tbsp of the the Mexican Fiesta and the Ranch dip for 1 cup of sour cream. So, you can get anywhere from 7-12 cups of dip out of one package.** The Hawaiian Cheeseball is very popular and can also be used as a sandwich spread.

Soups/Meals

Besides Dips, our 2 BEST SELLING categories!!! People are always looking for quick, easy, nutritious meals. Most of our soups and meals serve a lot, and people like that because they can feed their whole family.

Seasonings

All of the shaker jars are about the same in popularity. We sell more of the fish fry that is in the decorative fish bag at Christmastime and Father's Day, so we wouldn't suggest buying too many of these.
